

Senior Full Stack Web Developer

Position Description:

The company is seeking a developer who will be responsible for supporting and expanding our high traffic e-commerce systems. Our company and websites are rapidly growing and need the programming equivalent of a Swiss Army knife to help move us to the next level. If you are that person, we'll use your superior skills to help us with amazing projects such as: Merger integrations, developing international sales and fulfillment platforms, creating new business lines, customer personalization, product recommendation engines, and more.

Technical Requirements:

- Strong proficiency in Ruby and Ruby on Rails
- Strong proficiency in SQL (relational table design, query optimization, functions, analytical queries, triggers, ETL techniques)
- PostgreSQL administration (configuration, performance tuning, replication)
- JavaScript. Basic HTML & CSS.
- Distributed version control
- Linux system administration using automated tools
- OpenSSL. Certificates. 2 factor authentication. HTTPS. Handshakes. Performance implications
- Web security techniques (finding and preventing CSRF, XSS, SQL injection, etc)
- DNS. Basic theory, A, CNAME, TXT, etc
- Web performance (caching, minification techniques, reducing requests, etc)
- HTTP (cookies, sessions, keep-alives, etc)
- Experience with configuring high-traffic web servers (We use nginx)
- Statistics (A/B testing, standard deviation, significance tests, etc)
- Automated testing (unit and browser)

Highly Desirable:

- E-commerce experience
- Payment cycle (authorizing, capturing, refunding, voiding) and basic accounting knowledge
- Understanding of supply-chain processes and system knowledge (purchasing, inventory, fulfillment)
- Automated logging and reporting on those logs
- Experience with AngularJS
- Amazon AWS

Compensation/Benefits:

- Extremely competitive salary and bonus, commensurate with experience
- 100% Insurance for employee + family coverage
- 401k plan
- Casual dress
- Fully paid off-site international strategic planning meetings
- Very casual, fun and friendly work environment

ABOUT US

Tanga is a unique hybrid E-commerce marketplace that doesn't do things by the book. We disrupt by challenging status quo and like to be different. Hopefully you do too. You'll get the best of both worlds at Tanga with the feel and fun of a growing startup, yet we're extremely stable and profitable. Strategic meetings in Costa Rica? Sure. Fly everyone's families to Disneyland? Why not. We have 4 distinct businesses including a hyper-growth consumer products marketplace and the largest discounted seller of publications in the U.S. If you're interested in joining us, please send your resume and work samples to mverbin+ruby@tanga.com. Tell us how you'd be a great fit for our organization. If you contribute to an open source project, blog, or have relevant expertise outside of being a full stack developer, please let us know!
